

## Printing on Photo fabric...need help

Has anyone printed on this? The directions don't say what type paper to set the printer on. Since you aren't printing on the paper I'm not sure which to choose. Thanks.

I haven't, so I can't help with this particular question. :( Have you tried Googling the company to see if they have a FAQ page or some kind of support resource?

Hopefully someone else will chime in.
