

## Printing Material

Posted by mcarlson - 2015/06/03 14:29

---

I want to begin digital scrap booking, but don't know what to print my finished projects on or how to display them. Do I just use regular paper and put them in plastic sleeves in binders so they don't get fingerprints on them? Is there something better to use? What about the pages where there are pockets, etc? Any suggestions would be so very appreciated. :kiss:
