---

Hi there! Happy Monday! Many of us are finishing up our final techniques from the Frame-ups and Special Effects class (which will go on sale as a self-paced class in just a few weeks!), and wondering, what's next?

Well, I have an answer! :) Tonight we start registration for TWO brand-new classes! **Registration begins TONIGHT at 9:00 p.m. Eastern time**, and goes until midnight on the Saturday before each class starts.

- [Photoshop Brush\\*Abilities](#) . This two-week class focuses exclusively on advancing our skills with the incredible Brush tool. You'll learn ways to use brushes on a variety of projects, as well as amazing ways to extend the capabilities of your brushes. You'll also learn how to create, save, and organize your brushes. Class begins August 3. Unlimited Registration.
- [Beautiful Evidence: 20 pages in 20 days](#) . In this 20-day class, you'll create an incredible album celebrating the "Beautiful Evidence" of your life. I'll provide you with an awesome digital kit and 20 amazingly detailed templates as we walk through a page each day together. You'll finish with a keepsake you and your family will treasure. Class begins August 24. Unlimited Registration.

### New Curriculum Map

And to help you track which classes you've taken, what classes I offer, and how the subjects of the classes fit together, I've created a brand-new Course Map. This printable PDF file has links you can click to explore the descriptions of each class, and I think it'll really help you understand the curriculum here! [Click here](#) , or click the image below to launch the course map and start exploring classes!
