Hello from the Spraguelab! Here is a shout-out to a great hybrid scrapbooker, [Kelleigh Ratzlaff](#). Kelleigh R. sent me these two gorgeous pages, which she created from the instructions in [Episode 1 of Scrapbook Alchemy](#)

I really love the bright colors, and the visual triangle of embellishments she created. Here is the second page, which is an awesome twist on the design. {...}

I really love how Kelleigh rotated the design of the page to create a vertical strip of horizontal photos. It works beautifully! Also notice the way she draws attention to her title with a green button and (my favorite!) the red swirl embellishments. Looks great! Awesome job, Kelleigh!

Have you created projects from the Scrapbook Alchemy series? Drop me a note!
